

Proof of English Schooling Letter/s

These documents are only required from candidates who attended school in **South Africa or Quebec**. If you did not attend school in South Africa or Quebec or if you attended an **International School** in South Africa or Quebec from Grade 7 through Grade 12 you can ignore this document.

EPIK Program applicants who schooled in South Africa or Quebec between Grades 7 and 12 have to provide letters confirming they attended English Medium Schools. A scanned copy of these letters **must be included with their initial application**. If you started high school in Grade 8 then you will also have to provide a letter from your Primary/Middle School in addition to the letter/s from the High School/s you attended. Please ensure the Primary School letter covers your entire period at the school and not just Grade 7. Please make this sample (below) available to your school when requesting your letter to ensure that they include these 4 items in the letter:

- Your full name & date of birth as in your passport
- The year & Grade you started at the school
- The year & Grade you finished at the school
- That the school is an English medium school

To facilitate the speedy production of the letter give your old school the year you first arrived so they know where in the record to look for your information. You will need to submit a hand signed original letter to please ensure you collect the original letter.
